## **DETAILED ACTION**

### ***Response to Amendment***

The Amendment, filed on 7/6/2005, has been entered and acknowledged by the Examiner.

### ***Allowable Subject Matter***

Claims 6 and 7 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 6, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 6, and specifically comprising the limitation of a color picture tube including a pair of correction coils providing a preliminary deflection force in an opposite direction as the vertical deflection coil and forming a pincushion correction deflection circuit. Ogino et al. (US 5,039,923), the closest prior art of record, discloses the use of a preliminary deflection force to increase the defocusing of the pincushion effect in the deflection yoke, but does teach or suggest the use of a separate circuit, or circuit elements such as a diode, between the coils.

Regarding claims 7, claims 7 are allowable for the reasons given in claim 6 because of their dependency status from claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
